

Altamira Collection Figure 3

PRODUCT DESCRIPTION

The Altamira Collection consists of four artistic benches that are each available separately. Every bench consists of seven interconnected layers. The benches are delivered pre-assembled. You can anchor these, but it is not as necessary considering that the modules are incredibly heavy themselves. The bench invites you to sit down, lie down, and play on it.

Material	Polyolefin – manufactured using recycled household plastic waste
Available colours	Grey
Note	Measurements can deviate by up to 3%
Use	Gardens, parks, playgrounds, public domains, recreation parks, car parks, schools, etc.
